Office Action Summary

Application No.	CARLSON ET AL.
Examiner Daniel M Sullivan	Art Unit 1636

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on _____.
2a) This action is **FINAL**. 2b) This action is non-final.
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Paper No(s)/Mail Date _____.
4) Interview Summary (PTO-413)
Paper No(s)/Mail Date _____.
5) Notice of Informal Patent Application (PTO-152)
6) Other: _____.

DETAILED ACTION

This restriction requirement is based on the claims as amended in the Paper filed 12 April 2001. Claims 1-19 were originally filed. Claim 18 was canceled, claims 3 and 5 were amended and claim 20 was added in the 12 April Paper.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 6, 10 and 14, drawn to a method of use of a ligand for modulating expression of the ecdysone system in a plant, classified in class 800, subclass 278.
- II. Claims 1-3, 5-7, 9-11, 13-15 and 17-20, drawn to a method of use of a ligand for modulating expression of the ecdysone system in a subject or organism other than a plant, classified in class 800, subclass 21.
- III. Claims 4, 8, 12 and 16, drawn to a method of use of a ligand in producing a polypeptide in a cell, classified in class 435, subclass 70.1.

Claims 1, 2, 6, 10 and 14 are generic claims drawn to methods of use for both plants and non-plants, and will be examined to the extent that they encompass the elected subject matter with the election of either group I or II.

The inventions are distinct, each from the other because of the following reasons:

Groups I, II and III are drawn to distinct methods which comprise different materials and inherently different method steps to practice, requiring different searches of the prior art (for plants, non-plants and cells). Successful implementation of one method would not necessarily be

predictive of success with the other, and so the methods are not considered obvious variants. Therefore, the groups are deemed patentably distinct.

The inventions above are independent and distinct, each from the other. They have acquired a separate status in the art as a separate subject for inventive effect and require independent searches. The search for each of the above inventions is not co-extensive particularly with regard to the literature search. Further, a reference which would anticipate the invention of any one Group would not necessarily anticipate or make obvious any of the other groups.

For these reasons, restriction for examination is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel M Sullivan whose telephone number is 571-272-0779. The examiner can normally be reached on Monday through Thursday 6:30-5:00.
